The Blackhawk Ranch Shorthorns

First Annual Sale
August 17th, 1926
At Blackhawk Ranch, Diablo
Contra Costa County
California

The Head of Collynie Clipper Crest Showing Wonderful Breed Character

Collynie Clipper Crest is one of the greatest sires of the breed. His progeny are destined to play an important part in the improvement of American Shorthorns.

Those attending this sale are invited to see his calves in our 1926 Show Herd.

The most convincing means of establishing his merits were demonstrated by his progeny's winnings at the Leading National Shows and the High Prices they commanded in the 1925 International and 1926 Congress Sales.

Many of the females in this sale are safely in calf to his service.

"The Blackhawk Ranch, where a typical Aberdeenshire Herd may be seen without crossing the ocean"—WILL JOHNSON

Announcement

THE high standard of the cattle offered in this sale is emphasized by their splendid type and character combined with breeding that has proven a valuable asset in laying the foundation for the present unparalleled position of the Shorthorn breed.

A study of the brief history of the ancestry of these cattle, will reveal a concentration of blood that will convey to students of pedigrees some idea of the superior merit of the animals that are listed throughout this catalog. Volumes might be written regarding their ancestry which represents many of the most celebrated sires and greatest producing cows of the breed, whose progeny have conclusively demonstrated their worth by winning at the principal shows and commanding the highest prices throughout the entire realm of the Shorthorn World.

Shorthorn breeders realize the importance of good sires and will appreciate the predominant amount of blood in this offering descending from the great sire producing Collynie herd. Were it possible to prepare a complete and accurate statement of the history of this noted ancestry, it would be a revelation to all interested in the production of high class Shorthorns, but the value placed upon Collynie bred stock by Shorthorn breeders from all over the world has been proven beyond a doubt at the famous annual Collynie sales for the past forty years.

A cordial invitation is extended to all Shorthorn breeders to be our guests on August 17, 1926.

E. LOVELL, Manager,

A Word from the Author of "Shorthorn Cattle"

I am wondering if the cattle breeders and rangemen of the far west have any adequate conception of the bovine treasures Easton & Ward have assembled at Blackhawk Ranch. One needs to know much of Shorthorn history to read aright, and with understanding, the pedigrees appearing in this catalog. A pedigree in itself has no value, but as a means of estimating what may reasonably be expected from the animal of whose lineage it is a record it is a mine of information, enabling the student of animal reproduction to make wise sale-ring appraisements. Individual merit not backed up by ancestors of the same type is in no case dependable. It must be a matter of inheritance, for no animal can be relied upon to perpetuate its own characteristics, unless generations of like quality have entered into its production. That is why I urge special study of pedigree in connection with the offering being made upon this occasion.

It has been my good fortune to have enjoyed a considerable familiarity with the world-famous Collynie herd of the late William Duthie of Aberdeenshire, Scotland. I knew it in the days when Amos Cruickshank was still living, and giving his neighbor Mr. Duthie always the first choice of his young bulls. I knew it up to the time of the late proprietor's death, and will say that Blackhawk Ranch possesses at the present time a splendid representation of Shorthorns brimming with the blood of the best cattle William Duthie ever bred. That is why it gives me pleasure to urge all who appreciate the value of good Shorthorns as a factor in the production of better beef upon the Pacific Coast and in adjacent territory to acquaint themselves with the wealth of valuable material Messrs. Easton & Ward have at such cost and with such rare enterprise placed at their command.

This sale gives splendid opportunity for all who care to inform themselves as to what has really been assembled at Diablo, to inspect a herd that ranks with the best collections of the breed on either side the Atlantic. The Blackhawk herd of Shorthorns is a seed-bed, a nursery, a source of supply so exceptional in its composition that it deserves most generous recognition from all concerned in western cattle progress.

Good Blood Counts

The student of live stock breeding knows that good results in animal breeding comes only from the use of blood that has in the past proved its efficacy in the production of animals true to type and possessing the desired general breed characteristics. The results of the work done by Easton & Ward in the breeding of Shorthorns at Blackhawk, proves conclusively that they are working with blood that is strongly potent in the elements that tend to the production of the best. Their show yard productions are singularly pleasing. Their stock bulls stand out by the performance of their get, as among the greatest of their time and their matrons are producers of the right type. There are few herds which would not be benefitted by an infusion of such blood. I will attend this auction and will execute to the best of my ability any buying orders for those who cannot attend. Write me care of Blackhawk Ranch with full instructions.

GEO. E. MARTIN of

Aurora, Illinois,
June 25, 1926.

An announcement of a sale by auction of Blackhawk cattle should arouse the interest of every breeder in America.. It has been my privilege to see all of the bulls and females that were imported for this great herd and to know something of the methods that were used in the selection of the animals that were purchased.

I know of no herd where greater care or better judgment was displayed in acquiring foundation females as well as stock bulls than was practiced when this herd was started. Every animal that was bought was of correct form and type to produce thick fleshing, easy keeping, early maturing progeny. The pedigrees were studied with reference to lines of breeding that had done the most to improve the type and character of the breed and no animal was accepted that did not have for its immediate as well as its remote ancestors bulls and cows that were great individuals and producers of the best cattle bred in Scotland.

The result of this method of herd building has been demonstrated convincingly in the last two seasons of showing at America's greatest expositions, the American Royal at Kansas City, and the International Stock Show at Chicago. The cattle from this herd, especially the bulls, have won more first prizes and championship ribbons at these expositions than have those from any other breeding establishment. It is in the blood of Blackhawk cattle to produce winners.

Therefore, every breeder who desires to bring his herd up to present day standard of type, character and quality should endeavor to secure some of the offspring of the famous bulls and grand matrons that comprise the Blackhawk Herd. This sale presents such an opportunity. A representative of The Shorthorn World will be in attendance at this sale and will be pleased to counsel with those in attendance or to execute buying orders for those who cannot attend.

He has produced many winners in the Blackhawk show herds including Collynie King Lancaster, Junior and Grand Champion at the Portland International and the American Royal, 1925. Collynie Prince Lavender's ancestors were outstanding animals of their period in the celebrated herd at Collynie. His dam, Sittyton Lavender 26th produced Collynie King Lavender, sold in the 1919 Collynie sale for 5300 guineas, the highest price ever paid for a calf at Collynie. Collynie Earl Lavender, full brother to Collynie Prince Lavender, was Supreme Champion at The Border Union Show at Kelso. He is a great sire in the celebrated Durno herd at Uppermill.

MASTERSTROKE was one of the greatest sires ever used at Collynie. He was a dark red roan of conspicuous depth and massiveness and possessed a splendid head. He stamped character on all he bred and his progeny are also proving to be excellent breeders. Among them are two of the best breeding bulls in Great Britain at the present time; Collynie Royal Regent, the sire of numerous winners at Great Britain's principal shows, sold at the Collynie sale in 1918 for 4200 guineas being considered by authorities to be one of the best calves ever produced at Collynie; Collynie Clipper King, sold at the 1916 Collynie sale for 2200 guineas, a record price at that time, has proven to be a great sire of prize winning animals including Haselor Clipper Knight, Supreme Champion bull and winner of the Colling Brothers Memorial Cup for best animal of the breed at the Royal Agricultural Society's 1925 show at Chester, England, and Haselor Butterscotch, Supreme Champion at Banbury, England, in 1925 where he was purchased by Mr. Joseph Shepherd for 1900 guineas for export to the Argentine.

Copland, Collynie Silver Crest used by Mr. Alfred Reid, Collynie Golden Knight used at Edgcote, Knight of Lancaster used by Mr. William Duthie, and Collynie Bright Knight used by Mr. Durno, Uppermill. All these bulls sold for very high prices at famous sales, and two more sons sold in the 1919 Collynie sale for an average of 2450 guineas, Collynie Masterpiece was purchased by Mr. J. Durno of Rothiebrishbane for 2000 guineas, and Collynie Prince President was purchased by Mr. J. Pyper for 2900 guineas.

ROYAL EDWARD was bred by W. S. Marr at Uppermill and his service in the Collynie herd exerted a marvelous influence on the breed. He was extremely well bred being sired by the celebrated sire, Wanderer, and out of the renowned breeding cow Missie 150th that proved to be one of the best cows ever possessed by Mr. William Duthie. She was the dam of Messrs. Law's famous sire, Scotch Thistle, Mr. Jolliffe's King's Champion, Mr. George Harrison's Royal and Highland winner Collynie Champion, and was the grand-dam of Mr. Harrison's famous sire, Collynie Mandarin, the sire of Gainford Ringleader, sire of Mr. Matthew Marshall's celebrated sire Bridgebank Paymaster, Supreme Champion for three successive years 1921-22-23 at the English Royal Agricultural Society's shows and The Highland Shows.

His breeding contains the best blood of Shorthorn aristocracy and as an individual he is of the truest and best type. He is considered by many authorities to be one of the greatest sires of the breed. SCOTTISH HERO

SCOTTISH HERO was purchased at the 1922 Collynie sale. His worth as a sire will be seen by the splendid young females sired by him listed in this sale. He is the sire of Scottish Royal Hope, second in a big class at the 1926 Congress sale and also of some of the best heifers in our 1926 show herd.

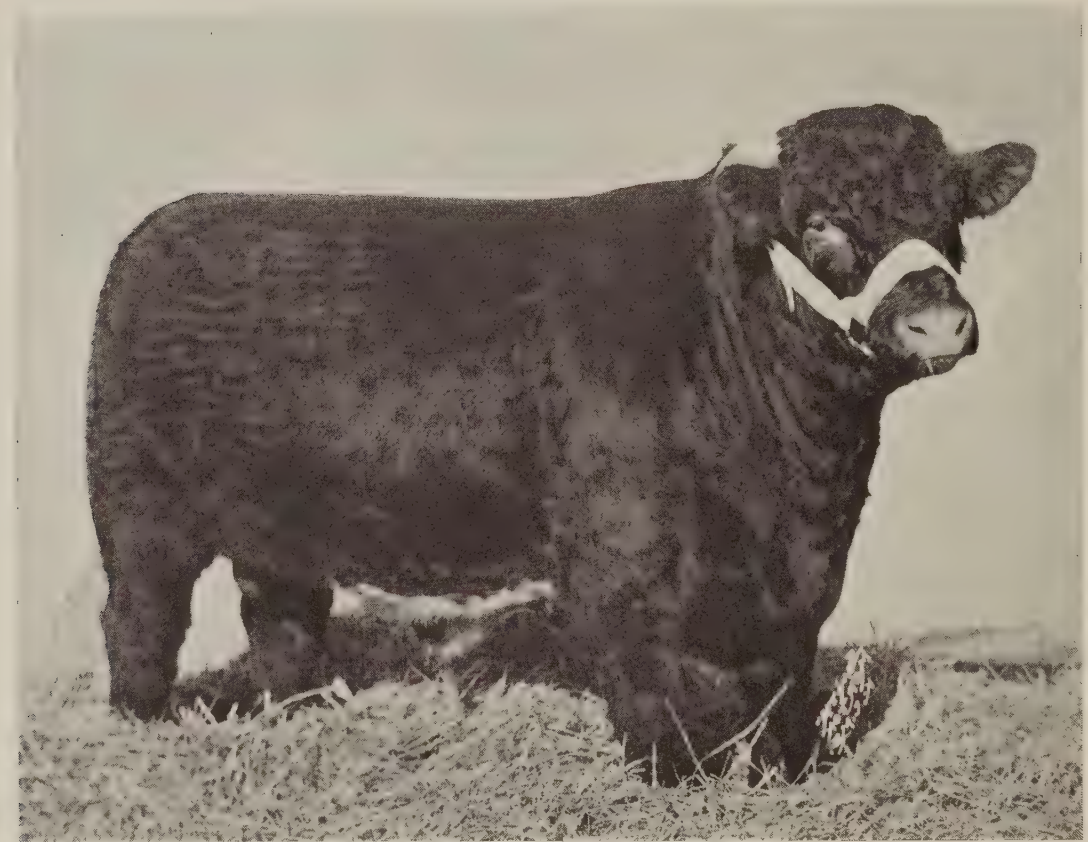

MAX OF CLUNY was bred by Lady Cathcart and was purchased at the 1912 Perth sale by Mr. William Duthie in whose herd he became known all over the world as one of the greatest breeding sires of the breed. He was a splendid red bull and was always considered remarkable for his wealth of flesh, his depth and thickness, and his grand head. He will probably now for all time retain the distinction which is his of siring the highest priced calf ever sold at Collynie, the 5300 guinea calf which topped the 1919 Collynie sale. His bull calves have always been in great demand at high prices. Collynie Lavender King, purchased for 2700 guineas was the sire of Denton Betty, Champion at Otley, Yorkshire, Royal Lancashire, Harrogate and Silsden Shows, also Champion and reserve supreme Champion at the English Royal Agricultural Society's Show at Newcastle on Tyne 1923. Collynie Matchmaker purchased by Mrs. Duncan Stewart for 2600 guineas is the sire of Millhills Bullion purchased for 3500 guineas by Mr. John Duthie Webster for his famous herd at Collynie.

KNIGHT OF COLLYNIE was bred by Mr. William Duthie and was retained for service at Collynie where he became one of the most valuable sires used in the home herd. He was royally bred and a splendid individual being very massive and low set. He carried his back to perfection, had an ideal tail head, and beautiful quarters, altogether a grand bull wearing a rich coat of red roan. The 1915 Collynie sale brought home to the Shorthorn public his outstanding merit when three of his bull calves sold for the grand average of over 1000 guineas. Over forty bulls sired by him have headed leading herds all over the world, and a great proportion of the great breeding cows now in the Collynie herd are his produce. He was out of the wonderful breeding cow, Proud Queen, the dam of the celebrated sire, Cupbearer of Collynie, the sire of the Champions at the Perth sales in 1918 and 1920, Pride of Millhills sold for 3100 guineas, and Millhills Comet sold for 6600 guineas. It is estimated that sixty-five bull calves sired by Cupbearer of Collynie sold for an average of 710 guineas, and there are now over thirty females sired by him in Mr. Duncan Stewart's famous herd at Millhills, Perthshire, Scotland.

WOLF OF BADENOCH was the sire of Meadow Queen 10th, one of the greatest producing cows of the breed, being the dam of Mr. Duthie's famous sire Masterstroke, Captain Jolliffe's celebrated sire, Quartermaster, and Quarterstaff, the great sire that heads the Maple Shade herd owned by Mr. W. A. Dryden. Two daughters of Meadow Queen 10th are also famous producing cows. Meadow Queen 11th, dam of Scottish Hero, is also the dam of Lord Merthyr's famous sire, Royal Merlin, and Collynie Metaphor in Mr. T. Buttar's noted herd at Corston. Meadow Queen 12th, another daughter, is the dam of Royal Mandate sold for 3200 guineas, the highest price paid for a calf at the 1920 Collynie sale, and Royal Mail in Messrs. Durno's famous Uppermill herd.
